PREFACE

In writing and compiling this book we have exerted every effort to make it plain, brief and right to the point, so that any one can easily understand every portion of it.

In all departments of business there are handy ways of doing things, which are quicker than the usual way; things that are practiced by the few and unknown to the many.

In this book one will find many practical suggestions that can be brought into daily use, thereby saving both time and money.

It is our earnest desire that you will find its value ample justification for its preservation.

THE PUBLISHERS.

NOTE—Complete Index in back of the book

Home-Made Stop for Gate or Barn Door.

Fasten any old hinge to lower part of the door or gate, and when not in use turn back against the door or gate. You will find that it will hold it partly open and secure.

Easy Way to Load Hogs.

Make a chute ten feet long out of heavy timber, and the width of your wagon and drive your hogs in. It will save you time and money.

Grazing.

Place ring on rope and tie to halter as shown in cut.

A Cheap Paint

Take a gallon of skim milk and add Portland cement in right consistency to spread well; same will make a drab color and will last for many years.

Home-Made Hog Trough.

Cut shows how simple a sensible hog trough can be made. Any child eight or nine years old can slop or water the hogs as easily as any grown person.

Easy Way to Drench Stock.

Take a piece of rubber hose 12 inches long and stretch over neck of bottle as shown in cut. You will find it to be an easy as well as safe way to drench stock.

To Keep Sow from Eating Pigs.

Take a rag and saturate it with kerosene. Rub the little pigs with this. The smell of the kerosene keeps the sow from eating the pigs.

A Home-Made Leather Punch.

Can be easily made with a rifle cartridge shell, using the size shell desired. Holes cut in the side of the shell enables you to empty the shell of the leather without any trouble.

Home-Made Truck for Swill Barrel.

Use plow handles attached to any old discarded wheel, placing barrel between the handles as shown in cut.

An Improved Spade.

Take a couple of old mower blades, heat and bend at right angle, rivet on the spade as shown in cut. You will find that it will make a clean cut on both sides.

Improvement on Doubletrees.

To avoid sudden shocks that will come when wagon is heavily loaded and on rough roads, if you will bring into use a common old buggy spring and bolt same as shown in cut to doubletree, it will save your team from sore shoulders.

To Prevent Waste in Feeding Stock.

Make box five feet square, corner posts out of two by fours, five feet high, saw on the four sides as shown in cut. You will find it will prevent the cattle from wasting by tramping the fodder under foot, and will save you many dollars in a year's time.

Home-Made Bushel Measure.

Take a lime or cement barrel, measure $12\frac{1}{2}$ inches up from the bottom and saw off. Place one hoop at top on outside and one in inside. Nail with $1\frac{1}{2}$ inch nails and clinch. Place another hoop $2\frac{1}{2}$ inches from top down on outside and clinch. Cut two holes, one on each side, for hand holds. Now you have a measure that will hold one bushel of potatoes level full.

Veterinary and Stock Department

Castrating a Large Boar.

Use a large barrel, about the size of the hog. Put corn in and induce the hog to go in after the feed. When he is in let two stout men lift the barrel on end. The hog may then be handled with perfect safety and with less worry to man and beast. This plan has been tried and is recommended.

Home-Made Hook for Pulling Straw Out of Hay Stack.

Take a piece of one-half inch round iron, six or seven feet long and make loop for handle at one end. Make fish hook point at the other end and you will have a tool that will not only last you a life time, but one that will pay for itself many times.

Farm Fixtures and Conveniences Self-Closing Gate.

A gate that will close itself can be made by making the bottom board project past the post and a stout spiral spring nailed to stake as shown in cut.

Making Them Pull Together.

When a team will not pull together, the following simple remedy will prove successful: Unhitch the inside traces and cross them, as shown in cut.

Home-Made Bag Holder.

Take a nail keg and knock the bottom out; drive eight penny nails slanting upward from the inside and three inches from the bottom. Nail keg to a post or side of the barn like cut shown.

Home-Made Rake.

Take a piece of two by three, 15 inches long and bore holes with brace and small bit every two inches apart.

using twenty penny nails. Nail small strip over top of rake to keep the nails from working loose and coming out. For handle ,use an old broom handle.

Plowshare for Alfalfa.

It is hard to plow alfalfa sod on account of the heavy roots. If you will grind on your emery wheel the edge of the plow-share like in cut, you will have no trouble as the roots slip over the scallops and are cut off easily.

Advantage of Mixing Salt in Mortar When Building a New Chimney.

In building a chimney, put a quantity of salt into the mortar with which the inner courses of brick are laid. The effect will be that there will never be any accumulation of soot in that chimney. The philosophy is thus stated: The salt in the portion of mortar which is exposed absorbs moisture every damp day. The soot, thus becoming damp, falls down into the fireplace.

Emergency Button Hole for Worn-Out Collar.

Punch hole in a small piece of cardboard and slip under band of collar, and use as shown in cut.

65

A Home-Made Level.

Paste a piece of paper oblong length on the outside of an 8 or 10 oz. bottle. Partly fill bottle and you will have a very good spirit level.

To Keep Plow Point Out of Ground.

When going from one field to another, if you will take the toe of an old shoe and place same over the plowpoint as shown in cut, it will eliminate a great deal of worry.

Good Lock for Drawers.

Use strap hinges. Bend pieces of iron as shown in cut.

Repairing Fence Post.

When fence post has rotted off at the ground, take two pieces one by three and drive into ground and nail on opposite sides, as shown in cut.

Home-Made Stump Puller.

Take a strong chain (a log chain will do) make a loop at one end, pass the chain around the stump and draw the other end of the chain through the loop, and fasten it near the end of a strong pole 2x4, 13 feet long and hitch the team to the other end and bring them around in a circle. If the stump is very fast, dig the earth away from it.

Imitation Sea Breeze.

Place shallow pan containing a saturated solution of salt before your electric fan; with fan tilted so air blows into the water.

Safe Way to Carry Fish Hooks.

Take an empty shot gun shell and fit cork in the end as shown in cut.

To Raise the Body of a Drowned Person.

The following scientific method was recently used successfully in Oklahoma. Procuring a quantity of unslackened lime and some gallon glass jars, the German who had undertaken the job, was rowed out to a spot near where the body went down. One of the jars was filled about half full of the lime, then filled with water, tightly corked and dropped into the water. It soon exploded. After the third trial, each in a different place, the body came to the surface.

Rust from Steel.—Take half ounce of emery powder mixed with one ounce of soap and rub well.

Easy Way to Lay Off Stringers for Building Steps.

Place clamp on square, making width and depth desired as shown in cut.

Handy Tool for Pulling Spikes.

To overcome the danger of breaking handle of hammer while pulling spikes, bring into use a piece of old gas pipe 20 inches long and proceed as shown in cut.

To Move an Auto or Heavy Truck Out of Mud

Cut notches in one end of plank to prevent rope slipping and tie rope to spoke, placing board as shown in cut.

Home-Made Shower Bath.

Buy a gasoline oil can from any hardware store and solder spray-er from an old sprink-ling can on the faucet. By hanging on a small pulley you can lower and fill can without any trouble. If properly taken care of, will last a lifetime.

To Cure a Smoking Chimney.

A smoking chimney may be remedied by knocking out half a brick on each of its four sides, about one foot from the top.

Medicine Stains on Silver.

Medicine stains on silver spoons and silverware may be removed by rubbing with a rag dipped in sulphuric acid and washing with soapsuds.

Home-Made Fruit Jar Opener.

Take a common leather strap with a buckle. Pull it tight on the cover and buckle the strap as shown in cut.

Envelope and Stamp Moistener.

Cut a sponge to fit a small medicine bottle or vial as shown in cut. Fill with water and you will find that it will answer every purpose.

To Remove Cork From Bottle Containing Carbonated Drinks.

Make pad by folding towel eight times. Place the pad on the table and strike bottle with repeated blows as shown in cut.

Simple Protection for Sills From Rot.

Any sills that are exposed to dampness can be covered with asphalt roofing and same will prevent the sill from decaying.

Leaks Around Chimneys.

Leaks around chimneys may be stopped with a paste made of tar mixed with road dust. It should be applied to the shingles, where they join the chimney, so as to form a collar, throwing the water well onto the shingles.

An Auger Stop.

Stop is made of a piece of common pipe, that slips over the bit as shown in cut. It is a good idea to have on hand some six or eight different lengths of pipe so as to be able at all times to bore hole any desired depth. You can never bore a hole too deep when using this stop.

Home-Made Shoe Scraper.

Bend an old piece of hoop iron and nail to bottom step. It is easy to make and will help keep the house clean.

Cutting Loaf Bread.

Cut through the center, then cut slices from the center toward the ends. The two cut surfaces can be placed together, excluding the air and keeps the bread fresh.

Easy Way to Place Drip Pan Under Refrig- erator.

Nail two small strips under refrigerator in a V shape as shown in cut, and drip pan will always be in the right place.

Home-Made Window Lock.

Simple and effective lock which is attached to the window sash by means of a screw.

Home-Made Wrench for Turning a Pipe.

If you haven't a pipe wrench handy, take two old files and an ordinary washer, as per cut shown.

Home-Made Gate on Wheels.

Make like the cut shown and it will last you lifetime. Easy to make and costs very little.

Home-Made Stump Puller.

Get a hard piece of timber, six by six inches and eighteen to twenty feet long, bevel down to three inches at one end and screw an iron plate on as shown in cut. Dig hole under the root of the stump and pry out. If your stumps are small, two men can do more in a day than three can with a machine. Try it and be convinced.

To Remove a Large Rock.

Dig a small ditch around same and partly under the stone, then build a big fire on it. When thoroughly hot throw 4 or 5 buckets of cold water over it. This is safer and less expensive than blasting it out.

Hinge to Make Door Close Itself.

Bend the lower strap hinge a quarter to a half inch, the amount depending on the size of the hinge.

Home-Made Hose Holder.

Use a piece of one by six, two feet long; attach another piece six or seven inches long at the end of the board at an angle of 45 degrees as shown in cut. You will find that it will make a very wide spray.

71

Home-Made Feed Bag.

Use an old grain sack, with small piece of rope running through the halter or bridle and back to check rein hook like cut shown.

Emergency Wrench.

When you find that your wrench is too small to use, wire two wrenches together as per cut shown and you will overcome the trouble.

38

Sewing Burlap.

Grind a sharp point on a sardine can opener, and you will have a needle that will answer every purpose.

29

Home-Made Boat

Cut a square hole 24 inches in a syrup barrel. Make frame of two boards one by 12, 10 feet long, with cross pieces as shown in cut. Nail barrel to frame.

Homemade Vise.

Screw piece of wood to bench, placing washers under the screws as shown in cut.

To Remove Paint from Wood.

Half a cup of washing soda dissolved in a pint of water makes a very strong lye that will remove paint or varnish with a little scrubbing. The cleaned surface should be very thoroughly rinsed and dried before being repainted or varnished.

Ever-Ready Ironing Board.

Hinge board to the inside of a closet or pantry door. Out of the way and in place.

A Soap Shake.

Use a baking powder can. Punch holes in the can with an ice pick or some other sharp pointed tool, and attach a large wire to the center, twisting the ends to form a handle.

Fountain Pen Made Easily.

Use two pens, place one above the other as shown in cut.

Home-Made Potato Baker.

Use number six galvanized wire and bend same in circular shape as shown, turning points up one and one-half inches.

To Prevent Ink From Corroding Pen Points.

Place broken pen points in the well. Same will destroy all acids and overcome the trouble.

Good Typewriter Desk.

Use an old discarded washstand, sawing out the drawers as shown in cut. Easy to make and saves the cost of buying a new one.

Home-Made Hose Nozzle.

An easy spray can be made by bringing into use a piece of triangular shaped galvanized wire netting as shown in cut.

To Make Whitewash Stick.

And at the same time to prevent it from cracking, add two and one-half ounces pure sodium chloride to every gallon. Be sure and get the pure sodium chloride or else it will not come out a clear white.

Home-Made Carpet Beater.

Here is one of the best carpet beaters one can possibly use; it is easy to make and will last for years. Take an old broom handle about 12 to 14 inches long and trim handle down to fit the hose, and then tack it in place to prevent slipping out. Use any old piece of hose 18 to 20 inches long.

Home-Made Hammock.

Take twenty-five or thirty old barrel staves and bore two half-inch holes in each end of the staves, running wire through as shown in cut.

Homemade Book Rack.

Cut a piece of galvanized iron, or heavy tin, as shown in cut No. 1. Bend the two pieces as per dotted lines. Size of iron to be 15x7.

Printing Monograms on Fruit.

From an anonymous source we get the following very simple method of doing a trick that to the uninitiated will seem to border on the marvelous:

Monograms, initial letters, or other designs, can be printed on such fruit as apples, pears or peaches by the action of the sun, with very pretty effect of either a light or dark color. To do this, draw the monogram, letter or design on a piece of writing paper, and paste it with mucilage or glue upon the side of the fruit exposed to the sun just before the fruit begins to color. When the fruit is ripe, and the paper is removed, the design will appear in a lighter or different color to the rest of the fruit; as, for instance, if the experiment is tried on a yellow-fleshed peach with a red cheek, the design will appear in gold, surrounded with red. If the opposite effect is intended, take a small oval or circular piece of paper, and cut out or pierce the letter or design in it, and paste on the fruit, which, when ripe, will have the design in high color on a yellow or on a light green ground of the shape of the piece of paper, and this again will be surrounded by the brighter color of the fruit.

Shade for an Electric Light Globe.

Place a piece of tin foil on one-half of the globe as shown in cut. Answers every pur-

pose and costs nothing, as you can get the foil at any grocery store for the asking.

Home-Made Buttonhole Cutter.

Take a piece of wood the width you want button holes made, lay the cloth over it, and cut with sharp knife. You will find that it will cut the cloth neater than with a pair of scissors.

Easy Way to Keep Buttons on Overalls.

When the button tears out of the goods, simply bend wire as shown in cut on the back side and you will no longer be worried with the button coming out.

To Mend an Umbrella.

An umbrella with a steel rod that is loose in the handle may be mended by filling the hole in the handle with powdered rosin and inserting into it the end of the rod heated sufficiently to melt the rosin. It will stay as well as if mended by an expert, who would mend it the same way.

Making Coffee.

Add a pinch of common table salt, as it will improve it greatly.

Home-Made Can Opener.

We all know how difficult it is at times to remove a tight fitting cover on a lard can. Try this. Place a heavy cord around the can just below the cover, placing nail as shown in cut and twist and your cover will come off easily.

Home-Made Bottle Opener.

Use knife and fork as shown in cut. Easy to handle and does the work.

Home-Made Lemon Squeezer.

Cut two boards into the shape of a paddle; have them 3 inches wide and one-half inch thick and 18 inches long. Bore two holes in one end as shown in cut and run wire through and twist the two ends together. This squeezer can be used for any kind of fruit.

Paint Spots from Clothing.—Saturate with equal parts turpentine and spirits of ammonia.

To Prevent Breaking of Dishes When Washing.

Cut a small piece of rubber hose and slip over the faucet.

Homemade Nut Cracker.

Bore holes of various sizes about one-half inch deep into a block of wood as shown in cut.

Aid in Threading Needle.

By using a piece of white paper as a background, a sewing machine needle may be sometimes much more easily threaded. Try it.

To Hem New Table Linen.

Stiff new table linen may be easily hemmed by rubbing the upper edge with soap before sewing it on the machine. The soap softens the material, at the same time lubricating the machine needle.

Home-Made Towel Roller.

Take a couple of old clothes hooks as shown in cut and screw them in the wall. Cut an old broom to length desired, and drive six penny nail in the ends and cut the heads off. Easy to make and very durable.

Tightening a Curtain Pole.

Use a common table fork as shown in cut.

Kitchen Convenience.

Make a four-ply pad of white canton flannel, and cut a slit to accommodate the hand as shown in cut.

To Prevent Taking of Poison Out of an Un-labeled Bottle.

Take a piece of ribbon or cloth and stick five or six eight-ounce tacks through same; then tie on neck of bottle, leaving the points sticking outwards as shown in cut.

To Hear Better Over a Telephone.

Place hand over transmitter while listening; by so doing you will overcome any local noise and will be able to hear much better what is being said.

A Homemade Broom Holder

Bend a piece of number eight or ten wire as shown in cut and tack on wall or door.

Removing Grease from Paint.

A good and cheaply applied method is to rub the painted surface with a paste of ordinary whiting. This is allowed to dry and when it is rubbed off with a cloth the dirt and grease is taken away with it. Whiting is cheap and can be purchased at any drug store.

To Fit Large Cork in Bottle.

If you have not a cork small enough to fit the bottle, a very good substitute can be made in the following manner; slit with pocket knife as shown in cut.

To Soften the Tone of a Talking Machine.

Use a common old clothes pin on the set screw as shown in cut. Try it and note the difference.

Keeping Candle Stick Clean.

Easy way to keep your candle stick clean is to cut a washer made from mica, or tin, to fit around base of candle to catch the tallow as it falls.

Handy Pin Cushion.

Sew piece of elastic to a small pin cushion to fit the wrist as shown in cut.

Easy Way to Remove Splinters

Take a common steel pen point and press it down on the flesh about one-third of an inch away from the splinter, then push it on over and catch the splinter between the points as shown in cut.

Home-Made Fly Trap.

Fill glass two-thirds full of strong soap suds, with as much froth as possible. Take a piece of pasteboard large enough to cover the glass and punch four holes in center of board. Spread molasses on under side of paste board as per cut shown.

How to Sew Thin Fabrics.

If a paper is laid upon the machine and the stitching done through the goods and through the paper the work will be perfect. The machine needle will cut the paper so it will be the work of but a moment to remove it.

Pouring Oil Out of a Can.

By pouring out of the top as shown in cut, you will find that it will flow freely, eliminating the necessity of having two holes in can. Try this and note the improvement over the old way.

Home-Made Swing Made of Common Chair.

Use one half inch rope and tie as shown in cut. Makes a nice porch or lawn swing.

Fresh Tomatoes the Year 'Round.

Freshly gathered tomatoes, packed in dry salt, in an earthen jar, it is said, will keep almost indefinitely.

Home-Made Burglar Proof Lock.

To prevent a burglar from turning the key with his pliers, bend a heavy piece of metal in the shape of a hair pin like the cut shown.

Planting Early Seeds.

Plant in egg shells filled with dirt, when seeds are up, replant egg shells in the ground without disturbing the roots.

Pretty Settee for a Lawn.

Use an old discarded wood or iron settee, and allow hedge to grow through it, trim from time to time, and it will only be a matter of a season or two before you will have something that is very useful as well as ornamental.

To Keep Cork Out of the Way.

When you push the cork down into the medicine by mistake, use an old hairpin as shown in cut and notice how easily the contents will pour out after that.

7.

Easy Way to Lower Window.

Cut an old mop stick the length of sash; fasten stick to top sash with a small staple, using small screw eye in end of stick.

Iron Rest.

Drive small flat-headed nails in the board.

A Sleeping Bag.

Double an ordinary blanket and pin up one side and the bottom with large horse blanket pins.

For Neighbor's Hens.

Take some kernels of corn. With a darning needle bore a hole in each of them, tie a string about 12 inches long to them. On the other end tie a common shipping tag, on which is written: "We are at neighbor Jones'; their chickens are locked up, but we had lots of fun scratching out the sweet corn and other nice seeds in his newly-made garden." Now throw this corn where the chickens w'll get it; they will swallow the corn, but not the tag. The owner of the poultry will see the tag, and read it. The novelty of the warning will, if anything, cause him to keep his poultry at home, and save you much annoyance.

Linen—Mildew.

May be restored by soaping the spots while wet, covering them with fine chalk scraped to powder, and rubbing it well in.

Straps on Mattress.

Makes it much easier to handle. Sew one on each of the four corners. Make straps of heavy ducking.

To Repair Hot Water Bags.

Don't throw away your old hot water bags, as they can be easily made almost new, by using several coats of liquid court plaster, letting each court dry before putting on the next one.

To Insert Rod in Curtains.

Place tip of an old glove on the end of the rod. You will find that this will save you time and 'worry.'

Home-Made Stamp.

A very good substitute for a rubber stamp can be made in the following manner: First draw the letter or letters desired and paste same on the small end of a common bottle, cork and cut the letters out with a sharp knife as shown in cut.

Home-Made Tack Puller.

Take a round headed bolt and file a V shape notch in it and screw the bolt into any old wooden handle, and you will not only have a very durable tack puller, but the best that is made.

Wood Soles for Damp Floors.

o

Cut piece of board about the size of the shoes, tack straps on as is shown in cut.

Taking Capsules.

Take a spoonful of thick milk or cream, put the capsule in center of it and cover with milk or cream. Then swallow it as though it were only milk.

To Mend a Pot Cover.

Use empty spool ,and start screw from under side of the cover up into the spool.

Home-Made Crutches.

Use an old worn out broom as shown in cut, pad and cover same. Easy to make, is cheap and durable.

Reflectors for Dark Room.

Swing mirror on outside of window as shown in cut, and note the difference in the light of the room.

Home-Made Medicine Dropper.

Make two V shape grooves in the stopper as shown in cut. Size of grooves will depend on the character of the liquid in the bottle.

Cheap Hen Nests.

Wire nail kegs to wall as shown in cut with number eight wire and a few staples. Bend wire around staple so the next can be taken down and cleaned when necessary. The holes sawed in the side are to aid in removing hens.

Bottle Indicator for Medicine.

Paste a strip of paper around neck of bottle. Print numbers from 1 to 12. If necessary to give the medicine on the half hour why place dot between 11 and 12. Stick pin in cork as shown cut, and move around to the time when the next dose is to be given. Try it and be convinced.

Cake Pan Bottom of Glass.

Cut the bottom of the pan out, leaving enough of an edge for the glass bottom to rest on. Cut glass to fit bottom. You will find it easy to keep clean and will enable one to examine the cake when baking.

Home-Made Pockets for Spools.

Made out of any kind of heavy cloth, and with as many pockets for thread as may be desired. Easy to make and inexpensive.

Secret Drawer.

Can be built in a step in the stairs with very little trouble and at a very small cost.

Removing Grease Spots from the Floor.

Sprinkle unslaked lime on the grease spots, cover with coarse brown paper and iron with a very hot iron. It is well to let the iron stand on the spots a few minutes.

A Handy Pocket to Hang on Foot of Bed.

A useful receptacle for an invalid, to be made of demin, linen or any heavy material as shown in cut.

Farmers & M

Makes new friends by giving Good Service to all its Old Friends.

They remember The

Farmers & Merchants Bank

when they have Good Balances. The Farmers and Merchants Bank remembers them when they need funds.

Farmers & Merchants Bank
